## Beehive Earrings

- Choose the colors or color combinations and knead the polymer clay soft
- Form a long string, divide it with a knife in the middle and form two plates in contrast color
- Put the Fimo cord into a beehive shape
- Stick a small plate and the beehive on an eyepin. Press the plate carefully to get a waveshape
- Put the earrings in the oven according to the manufacturer's instructions
- After the mass is cold you can turn the eyepin into a loop and attach an ear hook to the beehive polymer clay earring..
